

Dear Parents/Guardians,

We are excited to welcome your student to our Technology class this year. To ensure a smooth and productive learning experience during lab sessions, please ensure that your student brings the following items with them every time they visit the lab:

- **A set of headphones or earbuds dedicated for school use (Grades PreS-8)**
 - The headphones must be appropriately sized and comfortable for them, especially for younger students.
 - If your student's classroom teacher already requires headphones, those may be used in Technology class as well, and a separate pair is not necessary.
- **A Technology folder (Grades 1-8)**
 - This folder will be used to organize handouts, assignments, and other class materials throughout the year.
- **A pen or pencil (Grades 1-8)**
 - A writing instrument is essential for completing assignments and taking notes during lab sessions.

It is very important that these items are available each time your student attends the lab, as their absence may cause distractions for other students.

If you have any questions or concerns regarding this supply list, please contact me at lw Wyatt@stisidoreschool.com.

Sincerely,
Lisa Wyatt
Technology Teacher, St. Isidore School
