

# WELCOME TO 5TH GRADE!

I am looking forward to getting to know you and having you in my class! In this packet you will find many things:

## Supply List

Attached is a list of supplies that you will use in 5th grade. Please label all of your supplies with your name or initials. Thank you for your generosity!

## Reading Work

I encourage you to read a variety of books this summer. Make sure you read both fiction and non-fiction books. Also:

- Complete one reading project and be prepared to share it on the first day of school.
- Record the books that you read on the bookshelf reading log provided. You do not need to fill the entire shelf!

## Math Work

(if you are in my math class)

The most important math work you can do over the summer is practice your facts - especially multiplication and division. You can use whatever works best for you - flash cards, workbooks, or apps. The math we will be doing will be much easier if you know your facts. Also:

- Complete math packet.

All work is due on the first day of school. If you have any questions, please feel free to email me.

Have a wonderful summer! I look forward to seeing you in 5th grade!
